## Want a Station?

There's a small number of placeholders remaining. Do let me know if you would like a station. If I know you well enough, you may be eligible for a place on the map.

Of 1,780 stations available, currently 1,662 stations and tram stops have been filled. 118 stations remain, of which 87 are rail/metro stations, 16 are tram stops, 13 are People Mover stops, 1 is a stop on the Corte Furnicular and 1 is a stop on the Tigerlake Air Line.

1,438 separate people are represented on the map, of which I know 1,334 personally (most of the rest being famous to some degree).

Softballers may find that they do not have a station on this map, due to the size community I have struggled to fit many on. To remedy this, I have created the new Zafarnia map.

## Station Name Colour Codes

Deciding a station name and its placement is a process that takes some time. Once this has been fully decided, a station will be confirmed. Otherwise, stations are colour coded as follows:-

Station names coloured BLACK are CONFIRMED stations. This means that the station is extremely unlikely to be moved or re-named.

Station names coloured GREEN are close to confirmation, only a little more time is needed to ponder its name or position.

Station names coloured ORANGE need more time for their confirmation. Likely, these will be stations new to the map in this version.

Station names coloured RED will be renamed, a placeholder name is in situ. Any name suggestions are very much welcomed.

Station names coloured YELLOW will likely be positioned elsewhere.

Station names coloured BLUE or PURPLE are coloured as such for other reasons.

Station names coloured GREY may be removed entirely. This only applies to station names not named after people, to allow for more space. Only in exceptionally rare cases will a person be completely excised from this map.

## Other Transport Modes
